PREFACE

Symposium Organizers:

Jay Nelson	Don MacKinlay
Towson University	Fisheries Canada

CONGRESS ACKNOWLEDGEMENTS

This Symposium is part of the International Congress on the Biology of Fishes, whose main sponsors were Fisheries and Oceans Canada (DFO), the University of Aberdeen, Scotland and the US Department of Agriculture. The main organizers of the Congress, on behalf of the Physiology Section of the American Fisheries Society, were Don MacKinlay of DFO (overall chair, program and proceedings), Jan Flint (registration and accommodations) and Dominic Houlihan, University of Aberdeen (local arrangements). Preparation of the Proceedings was accomplished with the editorial and word-processing assistance from Cammi MacKinlay and Karin Howard.

I would like to extend a sincere 'thank you' to the many contributors who took the time to prepare a written submission for these proceedings. Your efforts are very much appreciated.

Don MacKinlay
Congress Chair

TABLE OF CONTENTS

State of our knowledge on the diversity and feeding ecology of the suckermouth armored catfishes (Loricariidae) <i>Arnbruster, Jon</i>	1
Herbivory by fishes on coral reefs; the current state of play <i>Choat, John H., D.J. Crossman and K.D. Clements</i>	5
Digestion in marine herbivorous fishes: is some fibre needed in the diet? <i>Clements, Kendall</i>	9
Hindgut fermentation in the silver drummer, marine herbivorous fish <i>Clements, Kendall and D. O. Mountfort</i>	13
Are sediment-ingesting gizzard shad detritivores, bacterivores or herbivores? <i>Findlay, Robert H</i>	17
Digestive amylohydrolitic profile of <i>Colossoma macropomum</i> , <i>Piaractus mesopotamicus</i> and their hybrid: a comparative approach <i>Moraes, Gilberto, et al</i>	23
Cellulolytic enzymes produced by aerobic fungi isolated from the gut of Panaque maccus. <i>Nelson, Jay</i>	27
Algal secondary metabolites and digestion in marine herbivorous fishes <i>Targett, Nancy M.</i>	35
Energy extraction and fiber degradation of Panaque maccus on three diets varying in digestibility <i>Niazi, Toba and Jay Nelson</i>	37
